

We Heard You Needed a Goat

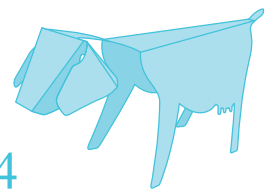

1 Pop out the goat. Fold the ears forward on all three of the score lines and tuck the sides of the face under the head.

2 Fold the head and ears gently onto its back. Treat the tail with the same kind of love and respect.

3 Fold head and ears forward under the goat's neck. Finally, fold both sides of the legs under the body.

4 Your goat should now stand on its own. For video instructions, please visit: www.needagoat.com
